PROFILE

Entry-level IT candidate with practical project experience in web applications, databases, Linux directory services and network switching. All Bachelor assessments submitted; awaiting final results. Seeking IT support or application support opportunities where I can troubleshoot, document solutions and develop within an IT team.

TECHNICAL SKILLS

Applications: Python, JavaScript, SQL, HTML/CSS, React, Vite, Tailwind CSS, Node.js, Express, REST APIs, Tkinter
Data: MySQL, MongoDB, Mongoose, pandas, NumPy, Tableau visualisation
Systems: Ubuntu, VirtualBox, OpenLDAP, BIND DNS, SSH, Keycloak, Cisco IOS, VLANs, EtherChannel
Access and tools: Firebase, JWT, bcrypt, role-based permissions, Git/GitHub, VS Code, PowerShell

SELECTED PROJECTS

Amanah Association Management Website | Personal project | In development

Developing a React/Node.js association application using MongoDB, Mongoose and Firebase authentication. Built member/admin interface views and a payment-confirmation form; contribution reporting and verification workflows are in development.

SITMACS | Academic project | 2026

Implemented authentication with bcrypt and JWT, account approvals, login lockout, first-login password changes and session revocation. Built role-based IT resource workflows using React, Express and MySQL.

Cisco Switching and EtherChannel Lab | Academic group project | 2026

Independently completed the network configuration in Packet Tracer. Verified PAgP, LACP and static EtherChannel. With one member link disabled, the subsequent connectivity test returned four replies and 0% packet loss.

Linux Directory, DNS and Keycloak Lab | Academic lab | 2026

Configured OpenLDAP users/groups and BIND forward/reverse DNS on Ubuntu. Verified DNS resolution and configured Keycloak LDAP federation; captured synchronisation reported two users updated with zero failures.

Chinook Database Application and Sales Analysis | Academic coursework | 2026

Built a Tkinter track-management application with parameterised SQL, price validation and invoice CSV export. Used pandas to validate data joins, calculate historical sales revenue by genre/country and reconcile totals.

EDUCATION

Bachelor of Information Technology and Systems
Victorian Institute of Technology | 2025-2026
All assessments submitted - Awaiting final results

Diploma of Information Technology (ICT50220)
Victorian Institute of Technology | February 2024-May 2025 | Completed

Languages: English and Bengali
